

2023-5-8 Is Russia-China Axis aligned with WEF? 28-3,4 > 29 < 1
28 Excessive Hegemony > 29 Polarity < 1 Primordial Oneness

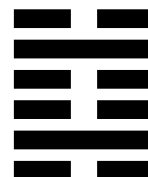

Nuclear 1

Primary 28

Derived 29

IMAGE

*Roots within Lake
Over-abundant lilies*

JUDGMENT

The Excessive 28 bunched-together, fascist Hegemon will separate at the MAN political level into balanced poles as in 29 even though within they are all One as per Hexagram 1.

So both things can be true:

*yes, they are working towards
a unified World Order but also*

*yes this order will feature various different civilizations, cultures or poles
which is as it should be.*

There will be both unity and diversity:

the One is the Many as the Many are the One

*The One World comprising the many different civilizations
who simultaneously comprise that same One World.*

The first main development is underway:

the breaking up of a Hegemonic mindset & money system long past its due date.

This process may involve Difficulty, Danger, Darkness

not to mention unrelenting Hard Work

but prosecuted with sincerity

will achieve its natural destiny.

The snake unknots itself effortlessly

Tangles twist and turn freely in the ever-flowing river of the present

We are all God's children in natural unending Creation...

Initial Evaluation

29 Derived is bi-polar whereas 28 is unipolar. The Hegemon must be broken up. And from 4 yangs to 2 yins it changes to 2 yangs and 4 yins. This is by changing the middle – Lines 3 & 4 which are the MAN lines of Hexagram #1. So the underlying structure, the core, must evolve from that Grand Initiation (#1) to something bipolar (29). 29 is traditionally quite negative because Water indicates Darkness, Danger, thieves and suchlike. But of course has positive aspects. But there the main thing, simply, is the flip from Unipolar to bipolar. This means they are effecting a bona fide split. However, that said, this creates balance.

The two changing lines in MAN indicated the two main countries working together to achieve a common purpose. The middle of the Hegemon is softened (Europe-Ukraine) and the result is bifurcation with balance in a process involving both danger and darkness.

YI TEXTS

Decision *Great exceeding. The ridgepole sags. Favorable to have somewhere to go. Prosperous and smooth.*

Commentary on the Decision

Great Exceeding. It indicates that the exceeding is great. The ridgepole sags; Two ends are weak. The firm exceeds the yielding. At the central place. Smooth and joyous in action. Favorable to have somewhere to go. There is success. Truly great is the time of Great Exceeding!

Changing Lines

3. Third Nine **Ridgepole sags. Misfortune.**

The misfortune of the sagging ridgepole, being unable to get support.

4. Fourth Nine **Ridgepole curves upward. Good fortune.**

If responding with others, Humiliation. The good fortune of the ridgepole curving upward. Rely not on support from below. [Huang]

Twin lines side by side: The lower line 3 indicates distress due to lack of support, whereas upper Line 4 indicates distress if one relies on support from inferiors. These are two sides of the same coin. The best way is for each zone to be self-supporting essentially, albeit of course with regular back and forth of both material and cultural inputs. What must be avoided is over-dependency. And Derived 29 indicates that what is also needed is steady flow of goods and services, healthy circulation.

Trigram Analysis

Lower: **Unbalanced Wood** ☳ in 3rd line of 28 changing to **Balanced Water** ☵ in 29:

Unbalanced Wood-Wind involves confusion, distraction, discursiveness, wildness, swirling, storming, spreading indiscriminately; Balanced Water has to do with flowing steadily towards destiny without being stopped by obstacles. It is also about feeling the core, the inner essence, the fundamental life force within, the truth in the bones.

Upper: **Unbalanced Lake** ☱ in the 4th line of 28 changing to **Balanced Water** ☵ in 29:

Unbalanced Lake involves indulging in surface appearances, illusions, delusions, fantasies, sense perceptions, sexual gratification and suchlike. Water balances here by doing whatever Hard Work is necessary, no matter the difficulty or darkness, to achieve a correct destiny in accord with our deepest innermost essential nature.

Heaven Earth Man

HEAVEN:	Lake below Water	☰ - ☵	Young Yang	60	Discipline, Measures
EARTH:	Pervasive Flow	☷ - ☵	Young Yin	48	The Well, Good Society
MAN:	Assertive Yang Yang	☳ - ☳	Old Yang	1	Primordial Yang
	☰ ☵ ☷	☳ ☳ ☳	☳ ☳ ☳	☳ ☳ ☳	☳ ☳ ☳

Line Analysis

A lot in Huang about the lines. Many problematic. 28 means great things in play but also things cannot stay as they are. That seems to be already underway in the geopolitical context. To me though, the over-riding impression is the segue from 4 yang lines bunched together (reminiscent of fascism perhaps) to the yang lines being separated and in central place, each being the Rule of its own pole, thus clearly suggesting multipolarity.

However, the Nuclear gives pause because underneath and within, they are all the same, all six lines yang. This reading thus suggests that

- great changes are indeed underfoot
- separation of powers and spheres is underway leading to multipolarity and
- there is one world order within it all.

Notes

- Visual arrangement of 28 and 29 tells a tale.
- 29 obviously follows 28, a natural progression resulting in balanced, symmetrical #29.
- #1 indicates that within all is a primordially creative process
- Core of Derived is #27 > #2, so this is a process leading to good marriage of #1 and #2.
- This One and Multipolar World symbiosis echoes Iain's One & Many, currently reading.

Summation

The Excessive 28 Hegemon will separate at the MAN political level into balanced poles as in 29 even though within they are all One as per Hexagram 1. So both things can be true: Yes, they are working towards a unified World Order but also yes this order will feature various different nodes, poles or axes which is perfectly fine. So there will be a combination of unity and diversity. The first main development has to be the breaking up of the Single Hegemon model which is long past its due date. This process may involve Difficulty, Danger and Darkness.
