JUDGMENT

The multipolar cause is for real and will lead to substantive, as well as fundamentally just, changes including a reversal in world leadership roles indicated by the two changing lines. Heaven is a cauldron/cooking/transformational process involving Earth's decisive momentum and change with tectonic shifts in the mix. The Man principle involves deconstructing and reconstructing to put things together better and return everything to #2 Mother Earth, which is people in society cooperating and nurturing each other.

Multipolarity is good and sincere.

The justice administered in 21 will lead to Increase for All.

'Relocating the capital,' perhaps of the United Nations, might be forthcoming.

*Giving from above to below
eliminating that which is harmful or obstructive
Cutting through deception and habitual tendencies
delivering true justice, even punishments where needed,
Heaven is a time of transformative hubble, bubble, toil and trouble
Earth a series of shocking tectonic shifts in the geopolitical terrain
whilst Man is tearing down old edifices and returning to Natural Order
benefiting the people who benefit each other
As it always should be.*

Initial Evaluation

Increase leading to Cutting Through. Multipolarity is a beneficial undertaking which involves some tough periods.

YI TEXTS

Legge: Increase denotes advantage in every movement which shall be undertaken -- it will be advantageous even to cross the great stream.

Wind over thunder -- the image of Increase. When the superior man perceives good, he moves toward it; when he perceives his faults, he eliminates them.

Confucius/Legge: Increase shows the upper trigram brilliantly decreased to augment the lower. What descends from above reaches to all below, and the satisfaction of the people is without limit. Advantage in movement is shown in the blessings dispensed by the second and fifth lines from their correct positions.

The action of Wood shows that it is advantageous to cross the great stream. Through the trigrams of Movement and Humility there is unlimited daily advancement -- heaven dispenses and earth produces, and all proceeds according to the requirements of the time.

Changing Lines 4,5

4 Cleary (2): Balanced action openly expressed is followed impartially. It is beneficial to use this as a basis to move the center of operations.

5 Wu: **When his approach is central, the prince will value his counsel. It will be beneficial to counsel the prince on relocating the capital.**

Trigram Analysis

Line Analysis

Two yang lines at top with only 1 at the very bottom = top heavy. 21 is far more balanced. The 4 & 5 changing lines indicating changing of the guard at the world leadership level.

Notes

- The flip in Lines 4 & 5 indicating reversal of roles leading to 21 indicates a just process.
- 23 involves stripping away, or even collapsing an entire edifice if necessary.
- From top-heavy hegemonic Heaven in 42 to balanced 3 yang lines in 21, multipolarity is the way.
- When the middle line in 21 is chewed away > 27 > 2. 23's top yang line departing > 2. Which is the masses, the people, cooperating society.
